PRESIDENT of the Council Wiley did a very graceful and judicious thing when he made Maricopa's Councilman, A D Lemon, Chairman of the Educational Committee when he could have placed a Republican for the position; a man who is thoroughly interested in public school ication and of most generou views regarding everything connected with the public schools. To Mr. Lemon, both in the capacity of a ool officer and as a citizen, is due the present excellent acilities which Phonix now njoys. We are pleased to note his preferment in the educational line.

THE Citizen explains the dispatch appeared in our cotempo st evening, as follows:

me time past there have en rumors affoat affecting the integrity of Wilson W. Hoover, the presiding Judge of this district. The rumors gained such currency and wedence that a petition was circulat ed and signed by prominent members of the bar of this city express ing a want of confidence in the Judge and asking for a change.

Judge Hoover arrived in this city on Thursday morning and expressed a desire to meet the members of the bar and to face the charges brought against him. A bar meeting was accordingly held attended by nearly all the lawyers in the city. The causes of complaint, which consisted chiefly of borrowing money of litigants and receiving social attentions from them, were freely discussed and the Judge made his explanation in regard to them.

After the Judge had made his explanation, several members of the bar who had signed the petition for his removal expressed themselves satisfied that they had acted hastily in the matter and the meeting passed

a unanimous vote of confidence. We are glad the Judge was able to satisfy the bar in relation to these
